

**ISTE STAFF CHAPTER (TN 205)**  
**ACADEMIC YEAR 2023-24(ODD SEMESTER)**

**Staff Seminar Report**

A one day seminar titled “**Who is Teacher?**” was organized by ISTE Staff Chapter [TN 205] on **16.11.2023** from 3.00p.m. to 3.45p.m. to the faculty members of Kings College of Engineering with an objective to offer a better understanding of Who is Teacher?. Welcome address was delivered by **Mrs.T. Gnanajeya**, Coordinator / ISTE Chapter. The session was handled by the resource person **Mr.V. Aravind**, Assistant Professor / Department of Mechanical Engineering.

A 'teacher' is a person who delivers an educational program, assesses student participation in an educational program, and/or administers or provides consistent and substantial leadership to an educational program.

A teacher is a person who helps others to acquire knowledge, competences or values. Teacher is a designation for the office, position, and profession for someone who devotes himself in the field of education through patterned educational interaction, formal and systematic.

"The teacher is a professional education with the primary task of educating, teaching, guiding, directing, train, assess and evaluate learners in formal education, in primary education and secondary education". The teacher is a figure of the greatest role in determining the quality of learning in an educational institution called school. Teachers are the most important component in the event education of students. As good as any educational program contained in the curriculum without the role of teachers who cultivate into material that can be understood, it will not mean anything for learners.

Teachers who can understand the difficulties of the students in terms of learning and other difficulties beyond learning problems, especially those that can inhibit learning activities of students. In simple terms, the teacher is the one who gives knowledge to the students.

A teacher in public view is a person who performs a specific education in places, not necessarily in a formal educational institution. The teachers' roles as the driving motivator students are very influential. Need a great personality, both in terms of psychological or physical. Each teacher's has a personality each corresponding personal traits they possess. A characteristic feature which is distinguishes a teacher with other teachers. Personality is actually an abstract problem can only be viewed by appearance, behavior, speech, dress, and in the face of every problem. The real personality is abstract, hardly seen or known real, so that can be known is the appearance or the container in all facets and aspects of life.

Totally 18 faculty members actively participated in this session and gained knowledge about Who is Teacher?. Vote of thanks was given by Mrs.T. Gnanajeya, Coordinator / ISTE Chapter.
