Universal Human Values

COURSE OBJECTIVE

This introductory course input is intended

- ❖ To help the students appreciate the essential complementarity between 'VALUES' and 'SKILLS' to ensure sustained happiness and prosperity, which are the core aspirations of all human beings
- ❖ To facilitate the development of a Holistic perspective among students towards life and profession as well as towards happiness and prosperity based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of Universal Human Values and movement towards value-based living in a natural way
- ❖ To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually fulfilling human behavior and mutually enriching interaction with Nature

Thus, this course is intended to provide a much needed orientation input in value education to the young enquiring minds.

Universal Human Values

Syllabus

UNIT 1: Course Introduction - Need, Basic Guidelines, Content and Process for Value Education

Understanding the need, basic guidelines, content and process for Value Education- Self Exploration- content and process; 'Natural Acceptance' and Experiential Validation- as the mechanism for self exploration -Continuous Happiness and Prosperity- A look at basic Human Aspirations -Right understanding, Relationship and Physical Facilities- the basic requirements for fulfillment of aspirations of every human being with their correct priority -Understanding Happiness and Prosperity correctly- A critical appraisal of the current scenario.

UNIT 2: Understanding Harmony in the Human Being - Harmony in Myself!

Understanding the needs of Self ('I') and 'Body'

UNIT 3: Understanding Harmony in the Family and Society- Harmony in Human-Human Relationship

Understanding Harmony in the family – the basic unit of human interaction --Understanding values in human-human relationship - Trust (*Vishwas*) and Respect (*Samman*) as the foundational values of relationship -Understanding the meaning of *Vishwas*; Difference between intention and competence - Understanding the meaning of *Samman*, Difference between respect and differentiation; the other salient values in relationship -- Understanding the harmony in the society (society being an extension of family -- Visualizing a universal harmonious order in society- Undivided Society (*Akhand Samaj*), Universal Order (*Sarvabhaum Vyawastha*) - from family to world family!

UNIT 4: Understanding Harmony in the Nature and Existence - Whole existence as Co-existence

Interconnectedness and mutual fulfillment among the four orders of nature- recyclability and self-regulation innature --Holistic perception of harmony at all levels of existence

UNIT 5: Implications of the above Holistic Understanding of Harmony on Professional Ethics

Natural acceptance of human values - Definitiveness of Ethical Human Conduct - Competence in professional ethics

Expected outcome:

1. The students are able to see that verification on the basis of natural acceptance and experiential validation through living is the only way to verify right or wrong, and referring to any external source like text or instrument or any other person cannot enable them to verify with authenticity; it will only develop assumptions.
2. The students are able to see that their practice in living is not in harmony with their natural acceptance most of the time, and all they need to do is to refer to their natural acceptance to remove this disharmony.
3. The students are able to see that lack of right understanding leading to lack of relationship is the major cause of problems in their family and not the lack of physical facilities in most of the cases, while they have given higher priority to earning of physical facilities in their life ignoring relationships and not being aware that right understanding is the most important requirement for any human being.
4. The students feel confident that they can understand the whole existence; nothing is a mystery in this existence. They are also able to see the interconnectedness in the nature, and point out how different courses of study relate to the different units and levels. Also they are able to make out how these courses can be made appropriate and holistic.
5. The students are able to grasp the right utilization of their knowledge in their streams of Technology/Engineering/ Management to ensure mutually enriching and recyclable productions systems.
6. The students are able to sincerely evaluate the course and share with their friends. They are also able to suggest measures to make the course more effective and relevant. They are also able to make use of their understanding of the course for a happy and prosperous society.

I started my profession as an institutional social worker for two years and later stimulated to teach college students. With thirteen years of teaching experience as an Assistant Professor in the Department Rehabilitation Science, Holy cross college, Trichy, I always take pleasure in guiding, counseling, shaping and molding youth. Was instrumental in establishing the 'Edu-Tech Assistive Technology Lab' under the UGC"HEPSN" project to augment educational services to persons with disability. I also had the privilege to be an official evaluator to conduct inspection of NGO(s) seeking grant-in Aid from the Ministry of social Justice& empowerment, Government of India. Have undergone an intensive course on "Social Science Research Methods" at Indian Social Institute, Bangalore and on "Innovations in Health Care Education" HogeschoolZuyd University, and Viataal International, The Netherlands.

For the last six years, as a rehabilitation and educational consultant I share my expertise for many training programs in the field of disability, life skills, catholic marriage preparation class, parenting in helping parents transform the life of their children and online counselor for Thanjavur diocese. The accolades I have gained are an award of appreciation for the outstanding services rendered towards the development of education for children with disabilities at the Ruby Jubilee celebration of Life Help Centre for the handicapped ,Chennai and clearing the UGC- NET and SLET. With strong social responsibility, I employ my skill in cultivating positive attitude and to develop healthy practices in facing life challenges particularly for youth.

Universal Human Values (UHV)
Students Induction Programme (SIP)

REPORT

As per AICTE instruction, many programmes with myriad forms of concepts addressing humanistic core value through “Universal Human Values” under UHV Cell, were organized at Kings College of Engineering from 19.12.2020 to 08.03.2021. The UHV aims to bring opportunities for students to enrich the quality of the learning process by exploring in-depth knowledge in human values as well as Engineering education.

Sessions

☞ Day- 1 (19/12/2020) AN 1.45 – 2.45 pm Session:

Prof. Mrs.K.Abhirami, Asst. Prof, Department of Computer Science, Kings College of Engineering delivered lecture on “Human Aspirations - Continuous Happiness and Prosperity”. She stressed ‘the need to focus on human values as they are quintessential to lead one’s life amicably, comfortably, and socially responsible’. She explained, “the core values help to grow and develop confidently and also help to create the healthy future we want”. Her discussion maintained ‘making decision destines our values and life’.

The student participants were kept abreast of all the required standards of being an exemplary to good values of life. Basic Human Aspiration

- Every human being aspires for a way of life which ensures happiness for all human beings living in harmony with nature.
- At an individual level, happiness is harmony and integration among all four dimensions within the self - Thought, Behaviour, Work and Realization.
- At the level of society, individuals aspire to ensure harmony and integration among four levels - Individual, Family, Society and Nature.

Sources of Ethics and values

- Books
- Thoughts
- Reflections
- Introspections
- Ideals

IN A CONTINUOUS, PROGRESSIVE, OPEN CULTURE OF LEARNING, KNOWLEDGE

Competency in Professional Ethics

- **We are responsible for our own destiny.** Young professionals must be honest, responsible and respectable towards self and the role.
- **Enriching fundamentals:** It is important to incessantly renew conceptual knowledge base. Subject matter understanding is an essential element of professional triumph. Nothing can beat knowledge.
- **Plan - Prepare - Participate:** Do not be casual in professional life, every interaction is important and one has to be prepared well in advance to remain abreast. Any winning endeavor will require prioritizing, meticulous planning, and cautious preparation. Hence one needs to follow definite work discipline. At work place planning and preparations are an integral part of professional life. Exhaustive preparation makes actual task much easier. Preparation and rehearsal will sharpen the edges. This can be a unique differentiating excellence in ones personality.
- **Positivity in thoughts:** Believe in purity and positivity of thoughts. Thoughts drive our actions. Our behavior is largely governed by our beliefs and thoughts.
- **Do not run around to get spotted:** Deliver every work with commitment and do the hard work, definitely You will get noticed.

IN A CONTINUOUS, PROGRESSIVE, OPEN CULTURE OF LEARNING, KNOWLEDGE

Here are five loyalty skills-and ways to improve proficiency

1. **Support/assistance:** Help a peer do a better job, struggle less, learn a new skill, impress the boss, or gain new respect with clients and coworkers.
2. **Giving time/attention:** Do take an interest in the workplace challenges and projects of peer group. Ask questions, listen well, and take the time to pay attention to the concerns of coworkers. Show empathy, and demonstrate that you understand their team and really "get" their point of view.
3. **Recognition/encouragement:** Give sincere compliments to coworkers when they've done an excellent job on a task, or when they demonstrate superior skills, say, while leading a meeting or doing presentations and cheering them on.
4. **Self-sacrifice/commitment:** Offer to stay late, or help in tough tasks of your coworkers. Stand up for a view point that may be controversial at work place and put yourself for them.
5. **Reliability/trust:** Exhibit consistency and competency which will improve the reliability of the company and trust will help reach career goals.

INTRODUCTION

Harmony in the Family

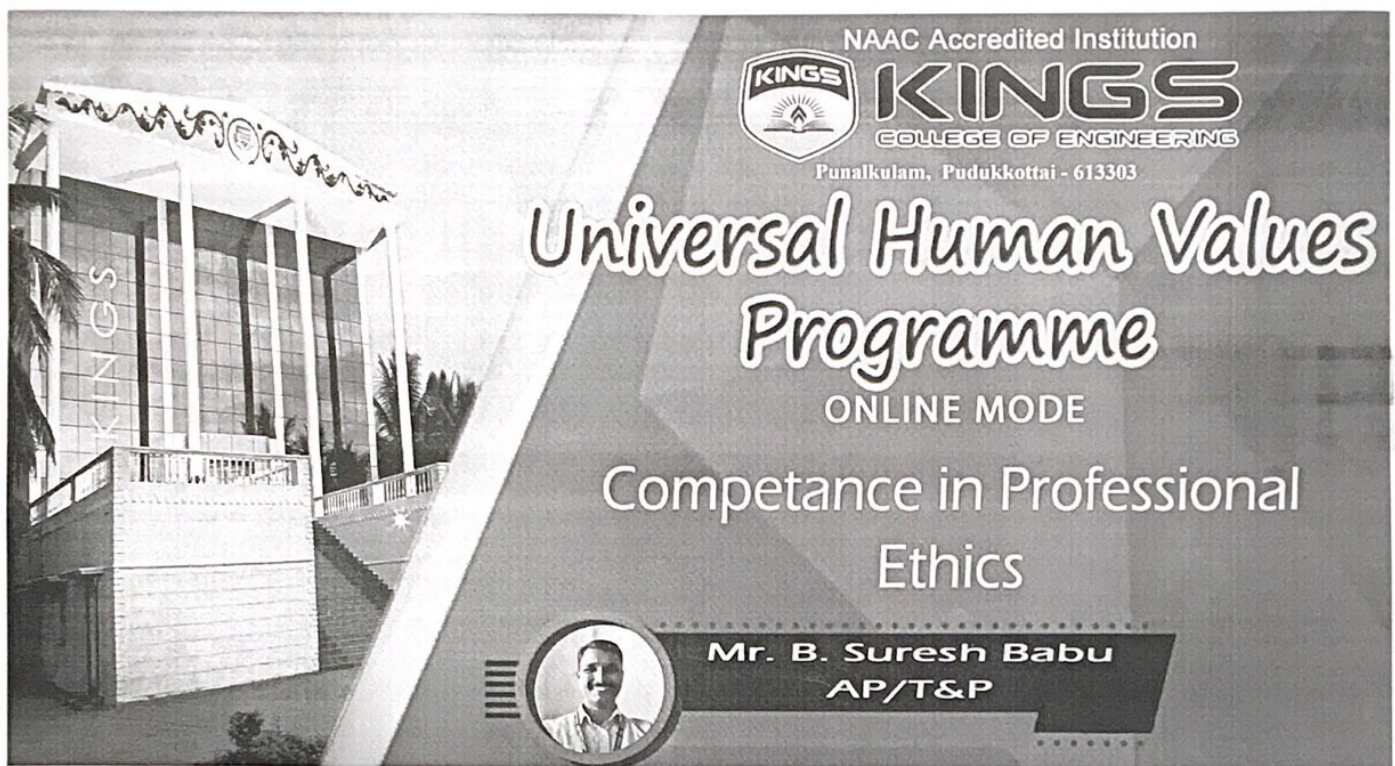

1. Relationship is – between one self (I_1) and other self (I_2)
2. There are feelings in relationship – in one self (I_1) for other self (I_2)
3. These feelings can be recognized – they are definite (9 Feelings)
4. Their fulfilment, evaluation leads to mutual happiness

Feelings in relationship:

- 1.Trust(Foundation value)
- 2.Respect
- 3.Affection
- 4.Care
- 5.Guidance
- 6.Reverence
- 7.Glory
- 8.Gratitude
- 9.Love(Complete value)

Respect

- Respect = Right Evaluation
- Whenever the evaluation is not right, it is disrespect
- Over evaluation – to evaluate for more than what it is
- Under evaluation – to evaluate for less than what it is
- Otherwise evaluation – to evaluate for other than what it is

Universal Human Values

COURSE OBJECTIVE

This introductory course input is intended

- ❖ To help the students appreciate the essential complementarity between 'VALUES' and 'SKILLS' to ensure sustained happiness and prosperity, which are the core aspirations of all human beings
- ❖ To facilitate the development of a Holistic perspective among students towards life and profession as well as towards happiness and prosperity based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of Universal Human Values and movement towards value-based living in a natural way
- ❖ To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually fulfilling human behavior and mutually enriching interaction with Nature

Thus, this course is intended to provide a much needed orientation input in value education to the young enquiring minds.

Universal Human Values

Syllabus

UNIT 1: Course Introduction - Need, Basic Guidelines, Content and Process for Value Education

- ❖ Understanding the need, basic guidelines, content and process for Value Education
- ❖ Self Exploration-what is it? - its content and process; 'Natural Acceptance' and Experiential Validation- as the mechanism for self exploration
- ❖ Continuous Happiness and Prosperity- A look at basic Human Aspirations
- ❖ Right understanding, Relationship and Physical Facilities- the basic requirements for fulfillment of aspirations of every human being with their correct priority
- ❖ Understanding Happiness and Prosperity correctly- A critical appraisal of the current scenario

UNIT 2: Understanding Harmony in the Human Being - Harmony in Myself!

Understanding the needs of Self ('I') and 'Body'

UNIT 3: Understanding Harmony in the Family and Society- Harmony in Human-Human Relationship

- ❖ Understanding Harmony in the family – the basic unit of human interaction
- ❖ Understanding values in human-human relationship
- ❖ Trust (*Vishwas*) and Respect (*Samman*) as the foundational values of relationship
- ❖ Understanding the meaning of *Vishwas*; Difference between intention and competence
- ❖ Understanding the meaning of *Samman*, Difference between respect and differentiation; the other salient values in relationship
- ❖ Understanding the harmony in the society (society being an extension of family)
- ❖ Visualizing a universal harmonious order in society- Undivided Society (*Akhand Samaj*), Universal Order (*Sarvabhaum Vyawastha*) - from family to world family!

UNIT 4: Understanding Harmony in the Nature and Existence - Whole existence as Co-existence

- ❖ Interconnectedness and mutual fulfillment among the four orders of nature- recyclability and self-regulation in nature
- ❖ Holistic perception of harmony at all levels of existence

UNIT 5: Implications of the above Holistic Understanding of Harmony on Professional Ethics

- ❖ Natural acceptance of human values
- ❖ Definitiveness of Ethical Human Conduct
- ❖ Competence in professional ethics

Expected outcome:

1. The students are able to see that verification on the basis of natural acceptance and experiential validation through living is the only way to verify right or wrong, and referring to any external source like text or instrument or any other person cannot enable them to verify with authenticity; it will only develop assumptions.
2. The students are able to see that their practice in living is not in harmony with their natural acceptance most of the time, and all they need to do is to refer to their natural acceptance to remove this disharmony.
3. The students are able to see that lack of right understanding leading to lack of relationship is the major cause of problems in their family and not the lack of physical facilities in most of the cases, while they have given higher priority to earning of physical facilities in their life ignoring relationships and not being aware that right understanding is the most important requirement for any human being.
4. The students feel confident that they can understand the whole existence; nothing is a mystery in this existence. They are also able to see the interconnectedness in the nature, and point out how different courses of study relate to the different units and levels. Also they are able to make out how these courses can be made appropriate and holistic.
5. The students are able to grasp the right utilization of their knowledge in their streams of Technology/Engineering/Management to ensure mutually enriching and recyclable production systems.
6. The students are able to sincerely evaluate the course and share with their friends. They are also able to suggest measures to make the course more effective and relevant. They are also able to make use of their understanding in the course for a happy and prosperous society.

Universal Human Values (UHV)

Students Induction Programme (SIP)

Academic Year 2018-2019

UHV Module I

A NAAC Accredited Institution
KINGS
COLLEGE OF ENGINEERING
Recognized under 2(f) & 12(B) of UGC
Approved by AICTE, New Delhi
Affiliated to Anna University, Chennai

Department of Science and Humanities
Academic Year 2018-2019

Universal Human Values

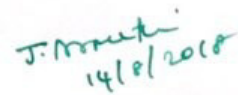

COURSE OBJECTIVE

This introductory course input is intended

- ❖ To help the students appreciate the essential complementarity between 'VALUES' and 'SKILLS' to ensure sustained happiness and prosperity, which are the core aspirations of all human beings
- ❖ To facilitate the development of a Holistic perspective among students towards life and profession as well as towards happiness and prosperity based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of Universal Human Values and movement towards value-based living in a natural way
- ❖ To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually fulfilling human behavior and mutually enriching interaction with Nature

Thus, this course is intended to provide a much needed orientation input in value education to the young enquiring minds.

- ❖ Trust (*Vishwas*) and Respect (*Samman*) as the foundational values of relationship
- ❖ Understanding the meaning of *Vishwas*; Difference between intention and competence
- ❖ Understanding the meaning of *Samman*, Difference between respect and differentiation; the other salient values in relationship
- ❖ Understanding the harmony in the society (society being an extension of family)
- ❖ Visualizing a universal harmonious order in society- Undivided Society (*Akhand Samaj*), Universal Order (*Sarvabhaum Vyavastha*) - from family to world family!

UNIT 4: Understanding Harmony in the Nature and Existence - Whole existence as Co-existence

- ❖ Interconnectedness and mutual fulfillment among the four orders of nature- recyclability and self-regulation in nature
- ❖ Holistic perception of harmony at all levels of existence

UNIT 5: Implications of the above Holistic Understanding of Harmony on Professional Ethics

- ❖ Natural acceptance of human values
- ❖ Definitiveness of Ethical Human Conduct
- ❖ Competence in professional ethics

Expected outcome:

1. The students are able to see that verification on the basis of natural acceptance and experiential validation through living is the only way to verify right or wrong, and referring to any external source like text or instrument or any other person cannot enable them to verify with authenticity; it will only develop assumptions.
2. The students are able to see that their practice in living is not in harmony with their natural acceptance most of the time, and all they need to do is to refer to their natural acceptance to remove this disharmony.
3. The students are able to see that lack of right understanding leading to lack of relationship is the major cause of problems in their family and not the lack of physical facilities in most of the cases, while they have given higher priority to earning of physical facilities in their life ignoring relationships and not being aware that right understanding is the most important requirement for any human being.
4. The students feel confident that they can understand the whole existence; nothing is a mystery in this existence. They are also able to see the interconnectedness in the nature, and point out how different courses of study relate to the different units and levels. Also they are able to make out how these courses can be made appropriate and holistic.
5. The students are able to grasp the right utilization of their knowledge in their streams of Technology/Engineering/Management to ensure mutually enriching and recyclable production systems.
6. The students are able to sincerely evaluate the course and share with their friends. They are also able to suggest measures to make the course more effective and relevant. They are also able to make use of their understanding in the course for a happy and prosperous society.

Rehabilitation and Educational Consultant
ALLEYWAY, # 11, Ajeez Nagar, Mathakottai, Thanjavur

I started my profession as an institutional social worker for two years and later stimulated to teach college students. With thirteen years of teaching experience as an Assistant Professor in the Department Rehabilitation Science, Holy cross college, Trichy, I always take pleasure in guiding, counseling, shaping and molding youth. Was instrumental in establishing the 'Edu-Tech Assistive Technology Lab' under the UGC"HEPSN" project to augment educational services to persons with disability. I also had the privilege to be an official evaluator to conduct inspection of NGO(s) seeking grant-in Aid from the Ministry of social Justice& empowerment, Government of India. Have undergone an intensive course on "Social Science Research Methods" at Indian Social Institute, Bangalore and on "Innovations in Health Care Education" HogeschoolZuyd University, and Viataal International, The Netherlands.

For the last six years, as a rehabilitation and educational consultant I share my expertise for many training programs in the field of disability, life skills, catholic marriage preparation class, parenting in helping parents transform the life of their children and online counselor for Thanjavur diocese. The accolades I have gained are an award of appreciation for the outstanding services rendered towards the development of education for children with disabilities at the Ruby Jubilee celebration of Life Help Centre for the handicapped ,Chennai and clearing the UGC- NET and SLET. With strong social responsibility, I employ my skill in cultivating positive attitude and to develop healthy practices in facing life challenges particularly for youth.

My greatest asset is my family

“Basic concepts of Value Education and Self Exploration about Natural Acceptance”

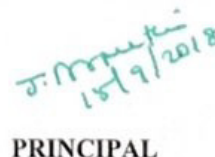

REPORT

UHV Organized a programme on “Basic concepts of Value Education and Self Exploration about Natural Acceptance” on 15.09.2018. In this Programme Dr.S.Udayakumar AP/ Chemistry welcomed the gathering. Prof. Dr.S.Sivakumar, Vice Principal, Kings College of Engineering delivered lecture on “Basic concepts of Value Education and Self Exploration about Natural Acceptance”. He pointed out that knowledge acquisition is very essential for students to meet out future needs of the competitive world. He dilated more on building self esteem among the odds.

The student participants were kept abreast of all the required standards of being an exemplary to good values of life. He emphasized on the needed moralities, an inevitable prerequisite for attaining the excellence in education and riveted his ideas on “the purpose of learning is not alone earning money but exhibiting true colors that reciprocate goodness in the long run.”

"How to improve self confident"

REPORT

UHV Organized a programme an **"How to improve self confident"** on 10.11.2018. In this Programme Dr.S.Udayakumar AP/ Chemistry welcomed the gathering. Mr.T.Suresh Babu T&P, Kings College of Engineering has motivated the students through her personal experience at Kings. He had an edge over others at everything he took part. He demanded the same from every young engineers who pursue engineering with passion. **"Engineering"**, she maintained her thought, **"will certainly address to the dreams of young achievers and will lead for greater challenges by offering perfect solutions to all of it. And that makes engineers more responsible member in society that requires comfortable living standard."**

He also insisted on the importance of communication to inspiringly face the heterogeneous society in global arena. He ended up her speech with a short account of advice for the young learners to take on the lead role, the challenges, and the tolerance to emerge notably.

REPORT

UHV Cell of our college, was organized a programme on **"Right Understanding with Human Beings"** at our college on 09.02.19. In this programme, welcome address was given by UHV coordinator Dr. S.Udayakumar, AP/III/ Chemistry. The resource person of the program Mrs.R.Revathi, HoD, Department of Civil, Kings College of Engineering delivered a lecture on "Right Understanding with Human Beings". The presenter enunciated clearly that 'understanding others in the right way will be of conducive to have better existence' and insisted 'it would lead for interconnectedness'.

She reminded, "Understanding others will help us predict the people" and pointed, "this will move us solidly for better coexistence". She had not forgotten to make clear to the student that 'our actions bring in reactions'. She maintained, "the joint living patterns make us to live life thoroughly by learning and adapting to the values". "Good inter-personal skills to communicate with others more effectively", was rightly quoted by her. Her presentation was interlaced with the need of 'SMILE' since 'it brings positive effects on us and it stimulates our brain to perform more productively'. Finally, the participants interacted with the resource person till their queries on interpersonal skills were addressed convincingly.
