"Master Trainer"

REPORT

11.04.2026

Mr. S. Ambalatharasu, NSS Programme Officer, Kings College of Engineering, Punalkulam, was nominated by Anna University to participate in the **Yuva Aapda Mitra Scheme – Training for Master Trainers (ToT)** conducted from **05 May 2026 to 09 May 2026** at **Vellore Institute of Technology (VIT), Vellore**. The five-day residential training programme was organized by the **National Disaster Management Authority (NDMA)** in collaboration with the **Tamil Nadu State Disaster Management Authority (TNSDMA)** with the objective of developing **Master Trainers** from **NSS, NCC, MY Bharat, and Bharat Scouts & Guides (BS&G)** to strengthen disaster preparedness and community resilience in disaster-prone districts. Participants were instructed to report to the VIT campus on 04 May 2026, and boarding, lodging, and training facilities were arranged by the organizers.

The training programme was designed to **equip participants with comprehensive knowledge and practical skills in disaster risk reduction, disaster preparedness, emergency response, and community-based disaster management**. The sessions covered various aspects of disaster management, including understanding different types of natural and human-induced disasters, disaster risk assessment, Incident Response System (IRS), search and rescue techniques, first aid and basic life support, fire safety and fire-fighting methods, evacuation procedures, relief and rehabilitation measures, psychological first aid, and coordination among emergency response agencies.

The programme **combined classroom lectures with practical demonstrations, simulation exercises, mock drills, field activities, and group discussions**. Experts from the National Disaster Management Authority, Tamil Nadu State Disaster Management Authority, and other disaster management agencies provided hands-on training in emergency response, rescue operations, casualty handling, and disaster preparedness planning. The interactive sessions enhanced the participants' confidence and preparedness to respond effectively during emergencies and disasters.

As one of the **46 nominated NSS Programme Officers** from universities and colleges across Tamil Nadu, **Mr. S. Ambalatharasu** represented **Kings College of Engineering, Punalkulam, Anna University**, and actively participated in all theoretical and practical sessions throughout the **five-day programme**. The training also focused on **developing leadership, communication, and instructional skills, enabling participants to function as Master Trainers** capable of training NSS volunteers and community members in disaster preparedness and emergency response.

Upon successful completion of the programme, **Mr. S. Ambalatharasu** was awarded the **Master Trainer Certificate** under the **Yuva Aapda Mitra Scheme** by the **Tamil Nadu State Disaster Management Authority (TNSDMA)** in recognition of his successful completion of the training and competency to serve as a Master Trainer in disaster management.

The knowledge and skills acquired through this programme will be effectively utilized to organize disaster preparedness awareness programmes, first-aid training, search and rescue demonstrations, mock drills, fire safety programmes, and community-based disaster management activities for NSS volunteers and the public. **The training has further strengthened the capacity of the NSS Units of Kings College of Engineering to contribute towards disaster risk reduction and community resilience.**

Outcome of the Training

The **Yuva Aapda Mitra Master Trainers Training** significantly enhanced the disaster management knowledge, leadership qualities, and emergency response skills of **Mr.S.Ambalatharasu**. The programme strengthened his competency to serve as a **Master Trainer** by enabling him to train NSS volunteers in disaster preparedness, first aid, search and rescue, fire safety, and emergency response. The certification will facilitate the organization of disaster awareness programmes, mock drills, and community outreach activities at Kings College of Engineering, thereby promoting a culture of preparedness and contributing to the development of safer, disaster-resilient communities.
