

<i>Department of Science and Humanities</i>	
HEAD OF THE DEPARTMENT	
	Name: Dr. V. Suresh Kumar
	Qualification: M.Sc.,M.Phil,Ph.D
	Department: <i>Science and Humanities - Chemistry</i>
	The department of Science and Humanities were established in the year 2001. It is well equipped with research laboratories and has dedicated staff members. The department has highly qualified faculty members with Ph.Ds. in diverse fields. They have several publications in reputed international and national journals and also organized many conferences and seminars. . The Department of Science and Humanities initiates and prepares the students to achieve critical thinking, the ability to innovate, work in multicultural environments, and adapt to professional courses. It typically focuses on providing a strong base in basic sciences and humanities to first-year students, preparing them for their specialized engineering courses. Courses such as Mathematics, Physics, Chemistry, English, Tamil and also incorporating Environmental Science taught by the Department of Science and Humanities during the first year, facilitate a better understanding of the courses of their specialization. The Science and Humanities courses impart essential skills like effective communication, leadership skills, and team spirit in the first year of Engineering. The faculty focuses on moulding quality engineers who are capable of making great contributions for a better tomorrow. The curriculum and syllabi are designed and periodically updated to meet the societal and technological needs of the times. The department regularly organizes seminars, guest lectures, short-term training programs, workshops, and conferences for the professional development of students and faculty within and beyond the institute.
